

ALBA ROSAL

Off-white Limestone without gloss
Description, finishing and uses

Technical description

White limestone with gray shades and a slight presence of fossils, without gloss and of fine texture.

Aesthetic qualities

Its exquisite purity and simplicity are able to delight and decorate wide surfaces with light, in the most contemporary projects, while it is showing the elegance of the fossil remains that enhance its natural beauty.

Applications

It is a very versatile stone that offers a wide range of possibilities in interior and exterior claddings, as well as in pavements and pool finishing. Mainly used in traditional facades, as well as utilized in ventilated facades, and since several years, it is also used in interior pavements without gloss.

It is available in smooth finishes but always matt, being perfect for cladding or indoor pavements, or with subtle wear out details, which makes it perfect for its use with outdoor pavements and pool edges, it is also slip-resistant and very pleasant when walking barefoot.

Formats

Standart: 60 x 40 / 60 x 30 cm

Trend: 120 x 40 / 60 x 60 cm

Large formats: 80 x 80 / 90 x 90 / 120 x 80 cm

Thicknesses: Starting from 2 cm we can produce any thickness.

Treatments

Water-repellent, oil-repellent and others.

It is advisable to treat the natural stone once installed with special products that do not alter its appearance.

Features and values

Bulk density: 2.150 Kg/m³

Porosity: 20,5 %

Water absorption: 1,5 %

Resistance to freezing: 168 Cicles

Slipping resistance: 80-57 Dry-damp

Reaction to fire: A1 Class

Bending strength: 8,10 MPa

Compressive strength: 58 MPa

Abrasion resistance: 28 mm

HONED

Most appropriate uses:

Traditional Facades or ventilated ones.
Soft and satin pavements, slightly shiny, mainly to be used indoor.
Decorative elements such as balustrades, moldings, columns, facilities, etc.

BRUSHED

Most appropriate uses:

Beaches and edges/upper part of the pools due its softness to the touch, while it is keeping its non-slipping properties.
Garden and urban furniture.
To simulate a slightly worn out effect on facades due the passage of time.

BRUSHED HAMMERED

Most appropriate uses:

Pavements of areas that require a very high non-slipping capacity.

Information for professionals

STONEMASONRY, BLOCKS AND BOARDS

Our limestones and sandstones are also available in blocks, boards, strips or ashlar for their later elaboration by the corresponding workshops and other professionals devoted to work with stones, we extract them directly from our own quarries. We have a special packaging for their adequate transportation, either nationally or internationally.

Ask us for prices, formats and professional information; we will be happy to assist you.
