## TECHNICAL DESCRIPTION

Natural Sandstone of medium gray almost brown color, without significant variations in its hue, with fine pores and very compact.

## AESTHETIC QUALITIES

Due to its neutral and discreet tonality, it is able to match elegantly with any type of materials and decoration styles, generating classic and contemporary environments, with a very natural touch.

## APPLICATIONS

It is especially intended for facades, and increasingly used in its various finishes, for indoor and outdoor pavements. Honed is more suitable for indoor pavements and cladding, it is also available slightly textured and slip-resistant, which makes it perfect for outdoor pavements and pool edges applications.

## TREATMENS

We advise to treat the natural stone, the first layer in the production line and the second once installed.
