

# Marina Rosal

With coral style and white background evokes the Mediterranean islands.

## FEATURES AND VALUES

- Bulk density**  
2200 kg/m3
- Porosity**  
18.8%
- Water absorption**  
6,7 %
- Resistance to freezing**  
168 Cycles without breakage
- Slipping resistance**  
85 dry, 64 damp 3 class (CTE)
- Reaction to fire**  
A1 Class
- Bending strength**  
8.3 Mpa
- Compressive strength**  
76Mpa
- Abrasion resistance**  
24 mm
- Charge de rupture pour les ancrs**  
1200N

## TECHNICAL DESCRIPTION

Calcarene natural stone of dull white color, and of uniform porosity; with a slight resemblance to travertines, due its porosity and hardness.

## AESTHETIC QUALITIES

It has a clear and clean looking, and preserves a rustic and coral style that adapts very well to the aesthetics of Mediterranean constructions.

## APPLICATIONS

Ideal for outdoor facades and pavements. With very insulating properties, it does not provide a burn feeling when it is touch and balances very well the level of adherence with dry or wet floors. It does not produce puddles and easily evaporates the water.

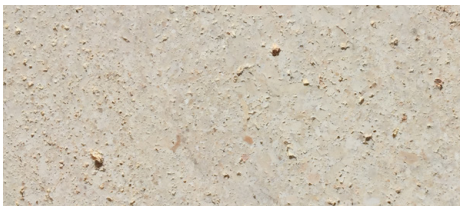

## TREATMENTS

We advise to treat the natural stone, the first layer in the production line and the second once installed.

## FORMATS

- Standard** 60 x 40 cm / 60 x 30 cm
- Trend** 120 x 40 / 60 x 60 cm
- Large formats**  
80 x 80 / 90 x 90 / 120 x 80 cm
- Thicknesses** Starting from 2 cm we can produce any thickness.

## NATURAL

## BRUSHED

## VINTAGE

## VEINED VC

## MOST APPROPRIATE USES

- Traditional or ventilated facade.
- Outdoor pavements and pool edges.
- Decorative elements such as balustrades, moldings, columns, facilities, etc.
- Outdoor or indoor pavements communicating outdoors.
- Pool edges with a softer effect to the touch.
- To simulate a slightly worn out appearance on facades due the passage of time, pavements and decorative elements.
- To simulate the old Mediterranean farmhouses facades and pavements.
- It can show irregular edges and simulate worn out pavements due the use.
- Traditional or ventilated facades.
- Outdoor pavements.

## Marina Rosal for professionals

Our limestones and sandstones are also available in blocks, boards, strips or ashlars for their later elaboration by the corresponding workshops and other professionals devoted to work with stones, we extract them directly from our own quarries. We have a special packaging for their adequate transportation, either nationally or internationally.

Ask us for prices, formats and professional information; we will be happy to assist you.
